Disruption

'The Olympics have been with the world since 776B.C., and only been interrupted by war, especially in the modern era ...'

- Bill Toomey | 1968 Olympic Decathlon Champion

...and now in 2020 we can add COVID-19 to the mix...

Status of Qualified Athletes

USA Shooting Statement - 25 March 2020

The USAS Board and The Interim CEO, with support of the USAS Athlete Advisory Committee, agree that under this 2021 postponement scenario, those athletes who have qualified thus far for the Olympic Team will remain the Olympic Qualified Athletes [n=17] that we will submit to the USOPC for approval.

IOC Statement - 1 April 2020

To date, 57 per cent of the athletes are already qualified for the Games. For the remaining 43 per cent of places, the IOC will work with the IFs to make any necessary and practical adaptations to their respective qualification systems for Tokyo 2020, in line with the following principles:

- 1. All quota places that have already been allocated to date remain allocated to the NOCs and athletes that obtained them.*
- 2. The possibility remains to use existing and scheduled qualification events, wherever these still have fair access for all athletes and teams.*
