6 **Eligibility/Classification**

Please refer to the World Shooting Para Sport website [www.paralympic.org/shooting](http://www.paralympic.org/shooting) for more information about classifications.

The WSPS current classification system is under a two year review period (September 2017 - September 2019). There are 3 different classes/events that athletes are eligible to compete in. They are:

- **Event PT1**, Class SG-S: Athletes with poor balance and/or trunk stability, competing from a wheelchair in a standard seated position. Athletes have an impairment in the lower limb(s), but no functional limitation in the upper limbs.

- **Event PT2**, Class SG-L: Athletes with good balance and trunk function, competing from a standing position. Athletes have an impairment in the lower limb(s), but no functional limitation in the upper limbs.

- **Event PT3**, Class SG-U: Athletes with good balance and trunk function, competing from a standing position. Athletes have an impairment in the non-shooting arm.

Athletes must have International Classification before they can compete at World Championships in Sydney. We will not have International Classification in Sydney so they must attend one of the events that offer classification first:
